DETAILED ACTION

1. This is responsive to the amendment filed 12/26/06. Claims 1-10 are pending.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-10 are objected to because of the following informalities:
 - A. As per claim 1 (line 1), claim 9 (line 2) and claim 10 (line 5), "in formation" should be --information--.
 - B. All claims depending from an objected base claim are also objected to as containing the same deficiencies.
4. Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
 - A. The last line of the claim refers to "the display unit"; however, this term lacks sufficient antecedence since the claim does not positively establish this element as part of the claimed "map information data carrier".
5. Claim 9 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.
 - A. Claim 9 has been amended to overcome a 101 rejection by inserting "a processor ..." within the body of the claim so as to attempt to define statutory subject matter. However, the specification does not disclose a "map information data carrier" comprising

a processor as claimed. The specification at page 7, line 16 discloses that the data carrier may be in the form of a CD-ROM whereas page 14, lines 9-15 discloses that the “data carrier” is used in relation to a “device” for providing map information. The “device” is disclosed as having a processor, not the “data carrier” itself. It is noted applicant also argues that claim 9 includes “a display unit”; however, this element is not positively recite within the body of the claim as being an integral part of the “data carrier”. Even if the claim did positively recite this element, the specification does not disclose a “data carrier” comprising a display unit.

6. Claim 9 stands rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claim 9 is directed to non-functional descriptive material (i.e., collection of map data). Where certain types of descriptive material, such as music, literature, art, photographs and mere arrangements or compilations of facts or data, are merely stored so as to be read or outputted by a computer without creating any functional interrelationship, either as part of the stored data or as part of the computing processes performed by the computer, then such descriptive material alone does not impart functionality either to the data as so structured, or to the computer. Such “descriptive material” is not a process, machine, manufacture or composition of matter. Applicant’s attempt to overcome this rejection by adding structural elements is suspect since the specification lacks sufficient disclosure to support the claimed embodiment (*supra*).

7. Claims 1-8 and 10 would be allowable if rewritten or amended to overcome the objection(s) set forth in this Office action.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
